21 October 1983

MEMORANDUM FOR: Chairman, Fine Arts Committee

FROM :
Chief, OCR Administrative Staff

SUBJECT : OCR Theaters & Projection Room Door Changes

1. Approval is requested to modify the current color scheme of the doors to OCR's two theaters and its projection room (containing two reviewing booths) in order to make the doors more compatible with the new theater decor. The two theaters and projection room have been under renovation for the past 10 months, and the present color scheme clashes with the new decor.

2. The interior sides of the doors have been covered with a wood laminate compatible with the other wood in the theaters and the wall coverings, and OCR as its first choice would like to use the same approach to the exterior of the entrance doors. These doors are normally left open during the day except during presentations and the wood laminate would blend best of all with the decor.

3. In the event it is not possible to laminate the doors, a second approach would be to alter the color scheme of the doors in the corridor to a color more compatible with the decor of the theaters.

4. We welcome the opinion of Commission members on how OCR can improve the appearance of the theater entrances, which are used to brief Agency visitors as well as staff employees. The doors in question are located at the entrance to Room 1E74, 1E76, and 1E78 and the corresponding area in 1E48 corridor.
